Date: September 30, 2013
To: Open Letter to Whom Concerned
Subject: Letter of Recommendation

This is to confirm Coffee County Water Authority's working relationship with David Hicks and Associates, our engineering firm. Our experience with this firm has been positive.

We are now in our third major project with Mr. Hick's firm and have found their technical engineering to be correct and their follow-ups (even years later) to be very satisfactory.

We did not hesitate to employ this firm (again) for the USDA funded project we now have in progress.

Dale Moseley, CCWA Manager
