To whom it may concern,

On behalf of the Covington County Water Authority Board, I am writing to recommend the engineering services of David Hicks and Associates. David Hicks and Associates has been the engineer of record for the water authority since its inception in 1987 and continues to serve our system today. During this time we have worked directly with the firm to obtain combinations of loans and grants from CDBG, USDA, SRF, and municipal bonds as our system has grown to six water wells, eight storage tanks, over seven hundred and thirty miles of water distribution mains, and nearly 4,300 customers.

David Hicks and Associates is easy to work with and has always been willing to take time to answer any questions or concerns. They have always been dependable, straightforward, and honest. The board is confident in recommending the services of David Hicks & Associates to anyone.

Sincerely,

Debra Bennett
