Board of Directors

Theodore Samuel, Chairman

Cal J. Wilson, Vice Chairman

Subject: Letter of Recommendation for David Hicks and Associates

To whom it may concern,

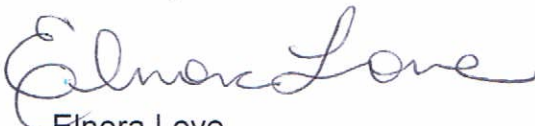

I have worked for the Macon County Water Authority for the last 35 years. Over this time period I have worked with many engineers, but the best by far is David Hicks and Associates. Over the last three years, they have helped the Macon County Water Authority tremendously. I wish I had found them sooner.

Mr. Hicks and Joe truly care about the water system and what is in its best interest. They provide detailed information regarding solutions to problems, so that the board can make informed decisions and be fully aware of all their options. The water authority is involved from the start to finish of a project and they always make sure our needs or concerns are addressed. It is evident that their firm is working for you and not the other way around.

When you call, they answer. When you email, they respond. They are willing to help with anything even if it has nothing to do with an ongoing project or necessarily related to engineering. They have been a valuable resource for the water authority.

I hope you will consider David Hicks and Associates for your engineering needs. I am certain you will not be disappointed.

Sincerely,

Elhora Love  
Manager
