TO WHOM IT MAY CONCERN:

I would like to take this opportunity to recommend to you the firm of David Hicks & Associates located in Abbeville, Alabama.

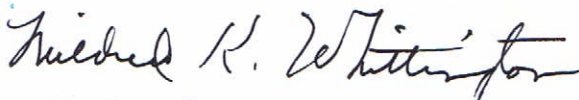

I have had to rely on their experience and knowledge on numerous occasions to overcome what seemed to be insurmountable problems with the EPA and other state agencies. As a new mayor, I was hit with what could have been disastrous problems that had not been addressed or resolved by the previous administration. Had it not been for this firm's involvement and dedication to solving these problems, the consequences for the Town of Midway would have been severe.

Additionally, this firm has worked diligently with our Town to complete grant applications. Their engineering expertise and insight have helped us receive and complete grant projects in a timely manner.

The demeanor of Mr. Hicks and his personnel is both professional and caring. Most of my involvement with the firm has been through Joe Harmon. He is young, enthusiastic, knowledgeable, professional and dedicated.

Anything else that I could say would not be overstating their competency. I strongly urge you to put your faith in Hicks & Associates. You will not be disappointed with the results of your endeavor.

Sincerely,

Mildred K. Whittington, Mayor
